CASE RECORDS OF THE MASSACHUSETTS GENERAL HOSPITAL

VOLUME 26

1940

The date of publication of any case may be determined from the case number. The first two figures of each case number indicate the volume number. The third and fourth figures give the number of the week, dating from January 1. The last figure gives the case number for the week. For example, Case 26362 is the second case for the 36th week of Volume 26.
